Count My Lies **by Sophie Stava**

If you enjoy a twisty, psychological suspense tale, this one is for you. Sloane Caraway, the main character, is admittedly a liar – page one confession. Why? Why not if it makes life more interesting and no one gets hurt? This time her lie leads her to becoming a nanny for a wealthy couple – a dream job in a dream home with a dream lifestyle. What could go wrong? A lot – especially if you are not the only one lying.
