

*Gmorning, Gnight: Little Pep Talks for Me & You* by Lin-Manuel Miranda, illustrated by Jonny Sun

This small book of insights from one of my favorite celebrities is a lovely comfort read. The illustrations by Jonny Sun are simple, but the perfect accompaniment to Lin-Manuel Miranda's words. While I've never seen *Hamilton* or *In the Heights* live on stage, I adored the film versions of both and have watched them over and over again. So whenever I read this, I can hear the words in my head in Miranda's voice. Especially every time the phrase "let's go" shows up.

*Gmorning, Gnight* is the type of book that you can open up to any random page, and potentially find just the thing that hits home in the exact way that you need in that moment. Or you can flip through and find inspiration. Or you can read the entire thing all the way through in order and just soak it all in. This is a book I find myself coming back to time and time again. It's always wonderful.
