

***Love from the Crayons* by Drew Daywalt, illustrated by Oliver Jeffers**

In this short and sweet picture book, The Crayons are back and showing that love can come in all different forms and in all of the colors of the rainbow. While the text is sparse, I feel like that's an open invitation to talk about why love is each color when reading this with a child. The illustrations are fun and a bit silly.

We are thrilled that Jeffers' art adorns all of our 2021 Summer Reading Program graphics! This and all of the other Crayon books would be a great way to get ready for Summer Reading in June.
