

***Love, Lies, and Cherry Pie* by Jackie Lau**

Emily Hung's mother is on the warpath – she is determined to find her remaining single daughter a husband. She has chosen sweater-vest-wearing engineer Mark Chan as the perfect husband and proceeds to throw them together. Emily is not pleased – until she comes up with an idea. What if she and Mark agree to fake date (to get both sets of parents off their backs)? Although they don't seem to have much in common (Emily is an author and barista), the two start to enjoy their time together. A charming rom-com, this book will have you cheering for the couple, sighing at the mother's antics, and waiting to see what happens next. A fun, easy summer read!
