

*Lucky Boy* by Shanthi Sekaran

Very well-written, this is the story of an undocumented immigrant to the U.S. who is separated from her young son. He goes into the foster system and is soon to be adopted by a young Indian-American couple. Whose son should he be? His birth mother's or that of the young couple who loves him so fiercely? Unsettling in the graphic depiction of prison corruption in the treatment of illegal immigrants, and very thought-provoking.
