

***Lyric McKerrigan, Secret Librarian* by Jacob Sager Weinstein, illustrated by Vera Brosgol**

In this hilarious picture book, all of the books in the world are in danger, and the only person to save them is Lyric McKerrigan, who just happens to be a secret librarian! Like any good librarian, Lyric always knows what book to recommend and helps to get those books into the right hands. She dons disguises and uses all of the tools at her disposal to thwart the plans of the evil Doctor Glockenspiel after he escapes from the Depository for the Criminally Naughty.

The art is colorful and fun, and greatly complements the story. It is basically a superhero comic about an awesome librarian, because honestly librarians are pretty much real-life superheroes. Be sure to pay attention to the book titles on the spines for some good puns!
