

*Part of Your World* by Abby Jimenez

An errant raccoon crossing the road sets the stage for this romance between two people from very different backgrounds. When Alexis Montgomery, a top-notch ER doctor from a legacy medical family, runs into a ditch due to the errant raccoon, she is at the end of her rope due to frustrations with her family and cheater boyfriend. Enter rescuer Daniel Grant – craftsman, B-and-B owner, and very small town mayor. They two immediately hit it off (a little too fast in my opinion), but the reality of their very different lives keeps them from truly committing.

Filled with interesting side characters and errant animals, this book is a light romantic read with food for thought regarding our priorities in life. Daniel causes Alexis to wake up to the pressured expectations of her family and consider what is really worth living for. A good read!
