

*Sunrise on Half Moon Bay*, Robyn Carr

Robyn Carr is probably best known for her Virgin River series, the series behind the very popular Netflix series by the same name. *Sunrise on Half Moon Bay* is a stand-alone book, about Addie and Justine, sisters born twenty years apart with very different lives.

Justine was in college by the time Addie was born. Before Addie was out of school, Justine was living the life anyone would envy, with a busy job as a corporate lawyer, two adorable daughters and a very family-supportive spouse. Addie had left college to return home when her parents needed her help, but Addie was also in need of their help and support. Slowly Addie's life became one of a caregiver, and she stayed totally involved in that role until both of her parents passed. And, as for Justine's perfect world? Well, not so perfect as she finds her supportive husband involved elsewhere. Both women find themselves facing life changes in this 300 + page summer time read.
