

*The Last Flight* by Julie Clark, audiobook narrated by Khristine Hvam and Lauren Fortgang

This book intrigued me when I first saw it as an audiobook on the shelf. Reading the back summary then pulled me into checking it out and listening to it. This story is of two women, both in difficult situations that they need to escape from in order to survive. If you have ever thought about escaping into a different life, this book is for you. Not only did this book keep me on the edge of my seat to see what would happen next, I was rooting for them both to make it to that level of security and happy ending. It was a twisted road all the way to the end. Great read for those who love a good mystery or thriller. I will try this author again!
