

## **The Rainbow and You**

Author: E.C. Krupp

Source: EPLD Children's Department

In celebration of how Reading Colors Our World, this Children's non-fiction science picture book celebrates everything about the Rainbow....and of course YOU! Do you know that the colors of the rainbow have a particular order? ROY G. BIV. Can you guess what they are? Not only does this delightful book enlighten us on the rainbow coloring scheme, but it shares with us the different meanings of the rainbow that exist from legends, mythology and even Christianity.

However, this book really shines when it shares how the rainbow was discovered, the science behind the rainbow, and how you can create your own rainbow! And to top it all off, it lets you know how you can become a member of the Rainbow Patrol. Perfect for elementary age children, this book is one of the many informative and entertaining books that you'll find in our Children's non-fiction section.
