

***You're the Apple of My Pie* by Rose Rossner, illustrated by Jill Howarth**

We're right on the cusp of autumn, gearing up for all of the fun of going to apple orchards, eating pumpkin pie, and jumping in leaf piles. And after a day of autumn fun, this is the perfect book to read at bedtime with your kiddos, all snuggled up under blankets. It's a great way to remind your little ones how much they mean to you.

This is just one of the most recent picture books in the *Punderland* series, so if you're into telling dad jokes or making puns that make your kids giggle, I would highly recommend this and any of the other books in the series. Chock full of autumn-y puns with matching adorable illustrations, kids and their grown-ups are sure to **fall** for the silly humor in *You're the Apple of My Pie*.
